To Whom It May Concern,

It is my pleasure to recommend Jeims Molina, a standout student-athlete on the Weber State University Track & Field team. I have coached Jeims in the throwing events throughout his collegiate career, and I can confidently say he is one of the most disciplined, coachable, and driven athletes I have worked with.

Jeims brings a unique blend of athletic talent, work ethic, and character. Whether he is preparing for competition or balancing the demands of Division I athletics with a rigorous Computer Science and Data Analytics program, he approaches every task with maturity and consistency. His commitment to improvement is evident — he asks questions, studies technique, and pushes himself in training without ever compromising his attitude or integrity.

What truly sets Jeims apart is his leadership and accountability. He shows up early, stays late, and maintains a positive influence on his teammates. Even while recovering from injury, he has demonstrated resilience, determination, and professionalism far beyond what is expected. These qualities translate directly to his work in the classroom and in his technical projects, where he brings the same focus, problem-solving ability, and motivation to excel.

I am confident that Jeims will continue to grow and thrive in any academic, athletic, or professional environment he enters. He has earned my highest recommendation, and I believe he will be a valuable asset to any team or opportunity he pursues.

If you have any further questions, please feel free to contact me.

Sincerely,
Coach Joshua Aydlette
Throws Coach, Weber State University

To Whom It May Concern,

I am writing to highly recommend Jeims Molina, whom I had the privilege of supervising while he worked with me in Costa Rica in the sale and distribution of fruits and vegetables from a delivery truck. During the time Jeims worked with me, he consistently demonstrated an exceptional work ethic, reliability, and maturity far beyond what is expected.

The nature of our job required long hours, physical effort, and the ability to perform under constant pressure. Jeims handled these demands with determination and a positive attitude. He worked through challenging conditions, including intense workloads, tight schedules, and difficult weather, without complaint. His ability to remain focused and productive during high-pressure situations made him one of the most dependable workers I have supervised.

Jeims also interacted daily with a large and diverse group of clients. He was respectful, professional, and efficient in every interaction, helping to build strong relationships with customers and maintain trust in our business. He showed strong communication skills, honesty, and a natural ability to represent our operation in a positive way.

What stood out most about Jeims was his sense of responsibility. I could trust him to manage tasks independently, handle customer orders accurately, and support the team during the busiest and most demanding moments. He consistently showed initiative and was always willing to step up when the work was difficult.

Based on my experience working closely with Jeims, I am confident he will be an asset to any organization or academic program. He is hardworking, disciplined, and dependable, and I recommend him without hesitation.

Please feel free to contact me if you require any additional information.

Sincerely,
Diego Rojas Rodriguez

To Whom It May Concern:

I had the privilege of being Jeims Molina's coach over the past three years. Jeims is an outstanding member of our track and field team at Weber State and I feel that he will be a valuable asset to any program he is a part of.

Jeims is willing to put in a lot of work to accomplish his goals. He is one of the most determined athletes I have ever had the opportunity to associate with. He is disciplined, passionate, and focused. He has goals to be at the highest level in our sport and to qualify for both the NCAA Championships and the U.S. Olympics as a discus thrower. This past season Jeims set the National Record in the discus for his home country of Costa Rica. He put in a lot of work and showed a lot of patience in reaching this mark. He competed for Weber State at the Big Sky Championships, but also spent time in the summer competing for Costa Rica in Central America. He has been relentless in the pursuit of his goals—watching film, spending time in the weight room and time throwing the discus and the hammer, working on proper form for hours and hours at practice.

Jeims' success has not happened without setbacks and obstacles. He has faced injury and discouragement. He has moved to a new country and sacrificed much in order to pursue his dreams. His journey in track & field has taught him grit and perseverance, characteristics that carry over into his academic and personal life. Through his experience as a track & field athlete, he has faced tremendous challenges, both mental and physical, that will be invaluable in his career ahead as a track and field athlete and in his professional pursuits.

Jeims is a great leader. He is an example of hard work and commitment. He is genuinely concerned with the welfare and success of his teammates. Jeims was a captain on our team this past year and was constantly looking for ways to make those around him better. He inspires others, treats people well, and has a very selfless attitude. He is making our program better on a daily basis. Jeims is one of our top performing athletes on the team, but more importantly he makes a positive impact off of the track. He is a great student and one of the most considerate, thoughtful people I have ever worked with.

I feel that Jeims is highly invested in becoming the very best he can be. He will be committed to excellence in your program. He is a quick learner and he is always thinking. He sees things that need to be done and he gets to work on them. He has made our program so much better. I give him the highest recommendation. Please reach out to me if you have any further questions regarding Jeims.

Sincerely, Corbin Talley
